

# CONSERVE WATER

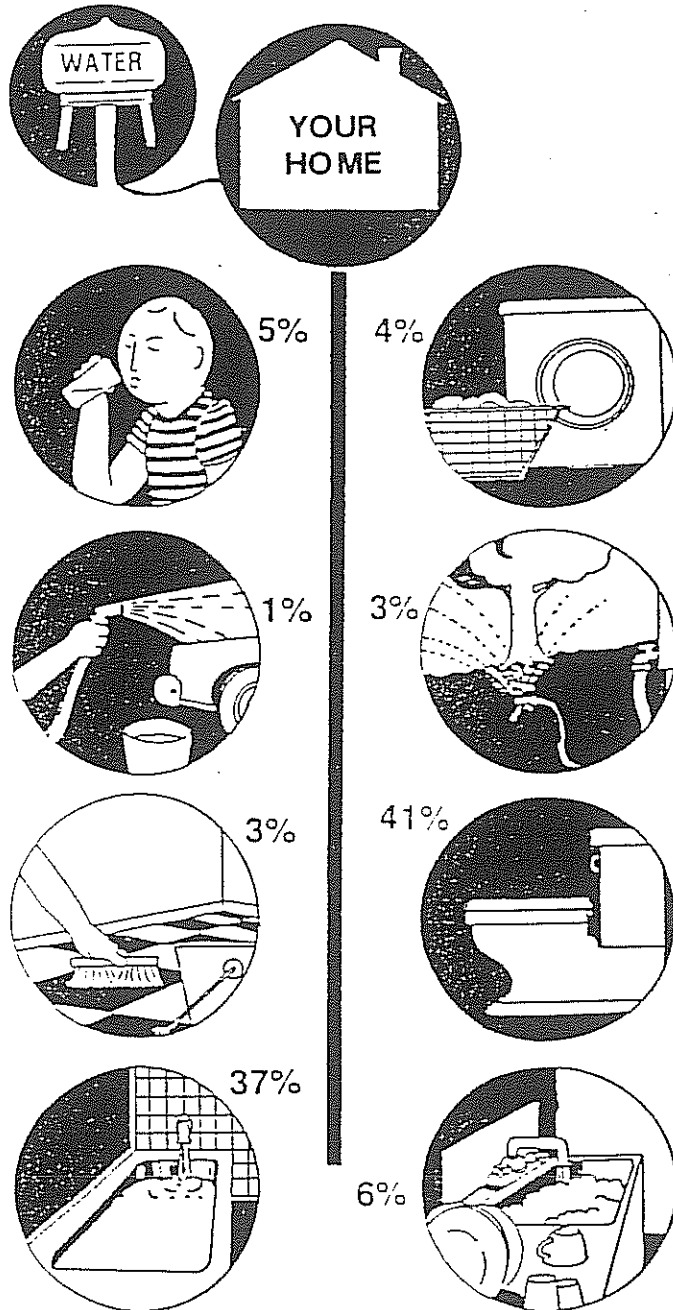

WATER IS PRECIOUS

CONSERVATION IS VERY IMPORTANT

---

MANY OF OUR CUSTOMERS ARE USING EXCESSIVE WATER IN THEIR HOMES OR ARE NOT AWARE THAT A TOILET OR FAUCET IS LEAKING. WHEN THE QUARTERLY BILL ARRIVES, AND WATER USAGE HAS INCREASED, THE WATER/ SEWER DEPARTMENT RECEIVES MANY CALLS BECAUSE OF HIGHER BILLS. LOCATE YOUR WATER METER (PHOTO COPY ABOVE). THERE IS A RED DIAMOND ON THE FACE, TO LOWER LEFT SIDE OF THE DIAL. WHEN ALL THE WATER IN YOUR HOME IS SHUT OFF, THIS DIAMOND SHOULD NOT BE MOVING. IF THE DIAMOND IS MOVING, THEN WATER IS LEAKING FROM SOMEWHERE. IN MOST CASES, IT IS A TOILET, WITH A WORN OUT PART CAUSING THE TANK TO LEAK INTO THE BOWL. MAKE REPAIRS AND SAVE!

# NORMAL WATER USAGE FOR A TYPICAL FAMILY

HERE ARE SOME IDEAS ON  
HOW TO CONSERVE WATER

- SHORTER SHOWERS
- FULL LOADS IN WASHER AND DISHWASHER
- CHECK FOR WATER LEAK IN TOILETS
- USE WATER SAVING SHOWER HEADS
- USE WATER SAVING FAUCET AERATORS
- WASH CAR WITH NOZZLE ON HOSE
- SHUT WATER OFF WHEN SHAVING AND BRUSHING TEETH
- BE A LEAK SEEKER

Water Conservation is up to **YOU**
